Aiducation International

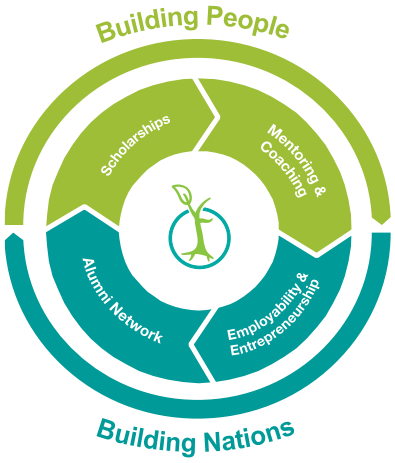
Scholarship Program

4 years | **CHF 3'200** | **Philippines**

The Gap

National attention in the Philippines is focused, rightly, on the most urgent problems: weak foundational literacy and malnutrition. But one group is easily overlooked: students who beat the odds. They make it through a strained public system to Senior High School with real promise, yet many never reach university. Entrance fees, admission exams, and competition with better-prepared private school peers create barriers they cannot overcome alone. Many also lack the guidance to choose a course, prepare for a career, and see themselves as future leaders. These students are already close to the finish line. Aiducation helps them cross it, with academic and financial support, mentoring and coaching, so their potential can serve society.

Our Impact Circle



What can you expect as a donor?

As a donor, you receive a **yearly term report** on your scholar's progress and **a personal update** - and whenever we meet your scholar at one of our mentoring or coaching programs, we bring you **a direct message in their own words**, whenever possible as a video.
